

DESCRIPTIVE SHEET OF COMMUNICATION MATERIAL

SUBJECT TO TYPE APPROVAL

PART I : GENERAL INFORMATION

Bearer

Corporate name: _____

Address: _____

Tel: _____ Fax: _____ Email: _____

Person handling the file : _____

Manufacturer

Corporate name: _____

Address: _____

Tel: _____ Fax: _____ Email: _____

Nature of the application

☐ First application for approval

☐ Renewal of approval

PART II : CHARACTERISTICS OF THE EQUIPMENT

Designation : _____

Brand : _____

Type : _____

Model: _____

Serial Number: _____

Software version: _____

Nature : ☐ Fixed ☐ Mobile ☐ Portable

Use: ☐ Usable ☐ Others : _____

Implemented technology: ☐ Analog ☐ Digital

Frequency band ☐ Transmission:

☐ Reception:

☐ **Bandwidth of channels:** _____

☐ **Modulation type:** _____ ☐ **Transmission categorization :** _____

Power:

☐ Effective Radiated Power (ERP) : _____

☐ Equivalent Isotropically Radiated Power (EIRP) : _____

☐ Transmitter power : _____

PART III : COMPLIANCE OF THE EQUIPMENT INTERFACES

Interfaces subject to type approval	Applicable technical specifications (Standards)		
	Radio characteristics	Requirements of Électromagnetic compatibility (EMC)	Requirements of Electrical safety

PART IV : DOCUMENTATION

☐ **Test report(s) for conformity assessment of radio characteristics**

Report reference: _____ Date of issue: _____

Established by : _____

☐ **Test report(s) for conformity assessment of electromagnetic compatibility's requirements**

Report reference: _____ Date of issue: _____

Established by: _____

☐ **Test report(s) for conformity assessment of electrical safety's requirements**

Report reference: _____ Date of issue: _____

Established by: _____

☐ **Other documents (clarify please) :**

PART V : STATEMENT

I, the undersigned, certify that the information given here is correct. And state, under my responsibility that the material described into PART II is consistent with technical specifications mentioned into PART III.

Name and Surname : _____ Position of signatory : _____

Place and Date, signature and seal : _____

COMMITMENT

I, the undersigned Ms/ Miss/ Mr _____

As the : _____

Of the company : _____

Located at : _____

Tel : _____ Fax : _____ P.O. Box : _____

Email : _____

Registered to the trade register _____

Under N°: _____ Patent N° _____

Applying for an approval certificate of telecommunication material :

☐ Terminal equipment (TE) ☐ Radio installation (RI)

☐ First application for approval ☐ Renewal of approval

On behalf of (Certificate's owner): _____

Designation : _____

Brand : _____

Type : _____

Model: _____

Serial Number: _____

Software version: _____

Interface(s) embedded into the equipment: _____

Manufacturer/Country : _____

According to the powers granted to me by that company, I declare on my word of honor :

- that the information appearing in administrative file with this commitment are accurate and true and that administrative documents mentioned in this file are either authentic, or true copies of authentic documents ;
- aware of approval provisions and applicable sanctions in accordance with existing regulations ;
- that I know all national technical specifications imposed upon the terminal equipment or radio installation, subject of this application ;
- that the terminal equipment, subject of this application, respects all approval technical specifications imposed to it ;
- that the terminal equipment or radio installation in question is still being manufactured ;
- my commitment to market only the terminal equipment or the radio installation conform to the type declared;
- my commitment to comply with every rule change, taking necessary measures, either by appropriate modifications, or by withdrawing equipment from market;
- my commitment to take necessary measures relative to equipments 'marking, and to market only equipments with the marking as required by the ARCT ;
- my commitment to ease ARCT tasks while exercising its role of controlling the market by presenting to it all necessary documents and make available or facilitate access to every terminal equipment or radio installation concerned to ARCT.

And undertake to comply with all provisions of the current regulation.
